

APICS NoCo Education Course Registration Form

Please complete and submit your registration form here, sending it to bob@supplychainpro2know.com We'll arrange for payment processing separately.

Certification classes are offered publicly and privately.

Private classes are always a confirmed schedule and location. Public classes are scheduled by demand according to region. As we confirm your registration, for IN PERSON classes we place you into our planned class roster by your preferred region;

- Metro Denver
- Broomfield/Boulder/Longmont
- Loveland/Ft Collins

Classes with insufficient enrollment are rescheduled to the next cycle.

For ONLINE classes we need only to have a min of 4 registrations to confirm the schedule. We usually start classes 3 times a year;

- January/February
- May/June
- September/October

Payment

Once we have a minimum to proceed with the class, we will notify you. We request **payment to be completed 4 weeks ahead of the class start** to allow time to order materials and provide advance assignments for the first class.

We accept credit/debit cards or checks or PO's. **Terms are Due Upon Receipt.**

Format

- **On-line classes** with a Live Instructor, flexible schedules available.
- **Weekday** classes are generally 3 hrs one evening per week, typically 5P to 8P for the duration. CPIM = 25 weeks, CSCP and CLTD = 13 weeks.
- **Weekend** classes are generally 8 hours on Saturdays allowing for 1 hour for lunch, running 8A-5P. CPIM = 9 weeks, CSCP and CLTD = 5 weeks.
- **A new option – 5 days consecutively** - when you just want to get it done quickly!
- **A minimum of 4 paid registrations to make a class.**

What is Included?

APICS cert course includes the courseware, APICS Learning System, access to the APICS e-learning back office with lots of practice resources and tests, APICS Dictionary, one Exam Credit Voucher per module, (CPIM has 2) and instructor supplied materials. Membership is required for the certification programs purchased separately from APICS.

***WIOA Grant Funding**, Colorado Department of Labor and Employment

Workforce Innovation & Opportunity Act, for unemployed persons –
This grant program typically pays all or most of the cost of the APICS NoCo certification programs as approved education providers. Individuals must apply to receive grant

money. The local WFC, Work Force Center offices administers this for each county. You will have to meet requirements and this can take a few weeks. Find out more here;

Program Descriptions

APICS - Certified Production Inventory Management (CPIM), (recommended as prerequisite for CSCP/CLTD)

This comprehensive course is to help prepare professionals for the CPIM exams.

Designed in 2 parts,

- Part 1 is the Basics of Supply Chain Management that runs approximately 30 hours followed by -
- Part 2 going into a wide range of topics in more depth covered in approximately 45-50 hours.

It is designed as the world's leading foundation on supply chain management for the practitioner managing strategies, tactics and operational decisions for a factory. CPIM is based on APICS BOK, Body of Knowledge for CPIM certification with 2 exams. The full CPIM is \$3399 (plus membership) and can be purchased in 2 parts.

- The APICS CPIM program takes an in-depth look at the production and inventory activities within the internal operations of a company and provides an in-depth view of competencies, including:
 - Materials management
 - Master scheduling
 - Production planning
 - Forecasting
 - Quality improvement
- The APICS CPIM program is divided into five process-oriented topic areas:
 - Basics of Supply Chain Management
 - Strategic Management of Resources
 - Master Planning of Resources
 - Detailed Scheduling and Planning
 - Execution and Control of Operations

What people are saying about our CPIM program;

"Bob Forshay is an excellent educator! His breath of knowledge relating to manufacturing is great. Bob is able to integrate his skills, knowledge as well as his industry experience. His training helped our team achieve vastly better control of our entire supply chain. Thanks Bob!"

Kate Kopelove, Sr. Buyer, Fresca Foods

APICS - Certified Supply Chain Professional (CSCP)

This course is to help prepare professionals for the CSCP exam. It is designed as an advanced supply chain management certification for the practitioner working at management level, dealing with global sourcing challenges, international trade, transportation and logistics. CSCP is based on having APICS BOK, Body of Knowledge building from CPIM certification. CSCP has a pre-requisite of;

- hold a conferred bachelor's degree or equivalent
- hold an APICS CPIM, APICS CIRM, APICS CSCP, APICS SCOR-P, APICS CLTD, APICS CTL, APICS CPIM-F, APICS CLTD-F, APICS CSCP-F, C.P.M., CPSM or CSM designation
- possess at least three years of related business experience

Included in the CSCP Learning System is the CSCP Exam Content Manual, list of Key Terminology and practice exams as well as supplemental resources. Candidates must submit their eligibility statement in order to schedule their exam at one of multiple testing centers throughout Colorado.

The \$3099 course (plus membership) is approximately 36 hours including;

- Module 1: Fundamentals of Supply Chain Management
- Module 2: Supply Chain Strategy, Design and Compliance
- Module 3: Implementation and Operations

What people are saying about our CSCP program;

"I cannot recommend the APICS CSCP program enough for all supply chain professionals. The program was particularly beneficial to me as my supply chain experience was limited to the maintenance / services back end of supply chain. This program provides a broad end to end view of supply chain from how to design a supply chain to best suit your company's competitive advantage to all of the detailed inter relationships in the Sales & Operations Planning model, to import / export, ISO and about anything you can think of supply chain related. I appreciated that the APICS CSCP program and the certification exam are not focused on regurgitation of facts but on the application of concepts and processes within the supply chain.

I particularly appreciated the APICS Northern Colorado CSCP course I just completed under Bob Forshay. Bob has such a wealth of knowledge and provided endless examples of how the course material applies in the real world. It was a pleasure to attend the class and gain not only Bob's insights but others in the class as well."

Jim Remnant CSCP, MBA

APICS - Certified Logistics, Transportation & Distribution (CLTD)

This course is to help prepare professionals for the CLTD exam. It is designed as a comprehensive supply chain management certification for the transportation and distribution practitioner working at management level, dealing with global supply chain

challenges, international trade, transportation and logistics. CLTD is based on having APICS BOK, Body of Knowledge and as with CSCP, the CLTD has a pre-requisite of;

- hold a conferred bachelor's degree or equivalent
- hold an APICS CPIM, APICS CIRM, APICS CSCP, APICS SCOR-P, APICS CLTD, APICS CTL, APICS CPIM-F, APICS CLTD-F, APICS CSCP-F, C.P.M., CPSM or CSM designation
- possess at least three years of related business experience

CLTD course runs \$2699 (plus membership) including these modules

- Logistics, Capacity Planning and Demand Management
- Order Management, Inventory and Warehouse Management
- Transportation and Global Logistics Considerations
- Logistics Network Design, Reverse Logistics and Sustainability

OTHER programs additional to APICS

****OSCM – Online Supply Chain Management** course. On demand self-paced entry level course, not a certification.

Certified Supply Chain Analyst (CSCA) – ISCEA program

Professional Certification that can increase your earning potential, AND profit for the Boss! Get certified on the basics of supply chain with 24 hours of class time.

CSCA certification includes:

- **21 hours of classroom instruction by a Master Instructor**
- **Study Guide and Reprints of select core SCM topics**
- **1 hour of review & a 2 hour online certification exam**

This program from ISCEA, International Supply Chain Education Alliance is ideal for those just getting started in the supply chain career, seeking valuable certification or those in support roles, such as Cost Accounting, Process Engineering or IT. This certification fee is \$1100 and is also OnLine or InPerson.

S&OP Aligned – 1/2 Day workshop

Principles of Executive S&OP, Executive S&OP requires alignment with the hands-on participation of executive management, from the top down starting with the president (COO, general manager, managing director, etc.). This approach is vital to good execution by proactive decision making based on alignment to business objectives;

1. Planning requires top-level ownership and leadership supporting clarity and alignment.

2. Is a decision-making process that balances demand and supply and sets the tactical direction of the business going forward with high confidence and clarity.
3. The planning cycle is monthly, with provisions for mid-period changes when major changes or interruptions may occur.
4. An aggregate planning tool, the volume level plan authorizes plans and schedules for mix related issues and priorities supporting the strategic objectives of the firm.
5. Functions are reflected both in units and dollars.
6. S&OP is highly cross-functional and collaborative. The groups responsible for developing the plans are accountable for their execution with alignment in the larger business environment.
7. An integral part of Executive S&OP is a review of actual performance with focus on proactive decision making.

We offer core topics including MRP, Inventory Management and others upon request. LEAN, 6 Sigma, TOC, Visual Factory, Kanban, Problem Solving, Value Stream Mapping and more.		
All prices subject to taxes and S&H. Expedited shipping is additional.		

Location and Preparation

For on-line sessions we have flexibility so not location dependent. We use a live instructor for the entire class and you attend from your home or office on your PC or laptop. You will need a good headset with a microphone and at times we will use video so a reliable web cam also helpful.

This is maximum convenience for the class and testing too.

For InPerson classes, as a class is confirmed, we work with the clients to provide meeting room space to keep cost low. We arrange for materials to ship to class participants and publish the location and assignment for the first class a couple of weeks before the start.
